

Lahontan Regional Water Quality Control Board

PUBLIC WORKSHOP-Sept. 16, 2015, 1pm

For Parties to discuss key changes in the draft order requiring Pacific Gas & Electric Company to cleanup and abate its discharges of chromium to groundwater in the Hinkley area.

This workshop will take place as part of the Water Board's regularly scheduled meeting. Therefore, a quorum of the Water Board may be present at the workshop, but no action or voting by the Board will take place on this item.

The workshop purpose is to bring the various parties together, and through facilitation, to discuss key changes in the proposed Cleanup and Abatement Order (CAO). No formal comment on the proposed CAO will be taken at the workshop, but the Water Board Advisory Team will forward consensus points to the Water Board for its consideration of adoption of a CAO, tentatively scheduled for November 4-5, 2015.
